Map filed JUL 29 1999

The applicant Washoe County, a political subdivision of the State of Nevada, hereby makes application for permission to change the Point of Diversion and Manner of Use of a portion of water heretofore appropriated under Permit 35150

1. The source of water is Underground
2. The amount of water to be changed 1,830.53 afa; 4.35 cfs
3. The water to be used for Municipal
4. The water heretofore permitted for Quasi-Municipal
5. The water is to be diverted at the following point NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 3, T.17N., R.19E., M.D.B.&M., or at a point from which the S $\frac{1}{4}$ corner of said Section 3 bears S. 26° 13' 42" W., a distance of 1,729.71 feet.
6. The existing permitted point of diversion is located within NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 2, T.17N., R.19E., M.D.B.&M., or at a point from which the E $\frac{1}{4}$ corner of said Section 2 bears N. 29° 48' 00" E., a distance of 1,132.0 feet.
7. Proposed place of use Please refer to Exhibit "A"
8. Existing place of use Please refer to exhibit "A"
9. Use will be from January 1 to December 31 of each year.
10. Use was permitted from January 1 to December 31 of each year.
11. Description of proposed works Well, pump, motor, and distribution system.
12. Estimated cost of works \$500,000.00
13. Estimated time required to construct works 5 years
14. Estimated time required to complete the application of water to beneficial use 10 years
15. Remarks: Please refer to map filed under Permit 35147 for the existing Point of Diversion.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 35150 is issued subject to the terms and conditions imposed in said Permit 35150 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping the well under this permit on other previously existing wells that are located within 2,500 feet of the well under this permit.

Any pumping of water under this permit may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of the well under this permit, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

The total combined duty of water under Permits 35147, 35149, 35150, 58926, and 65364 shall not exceed 1,886.78 acre-feet annually.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

(CONTINUED ON PAGE 3)
